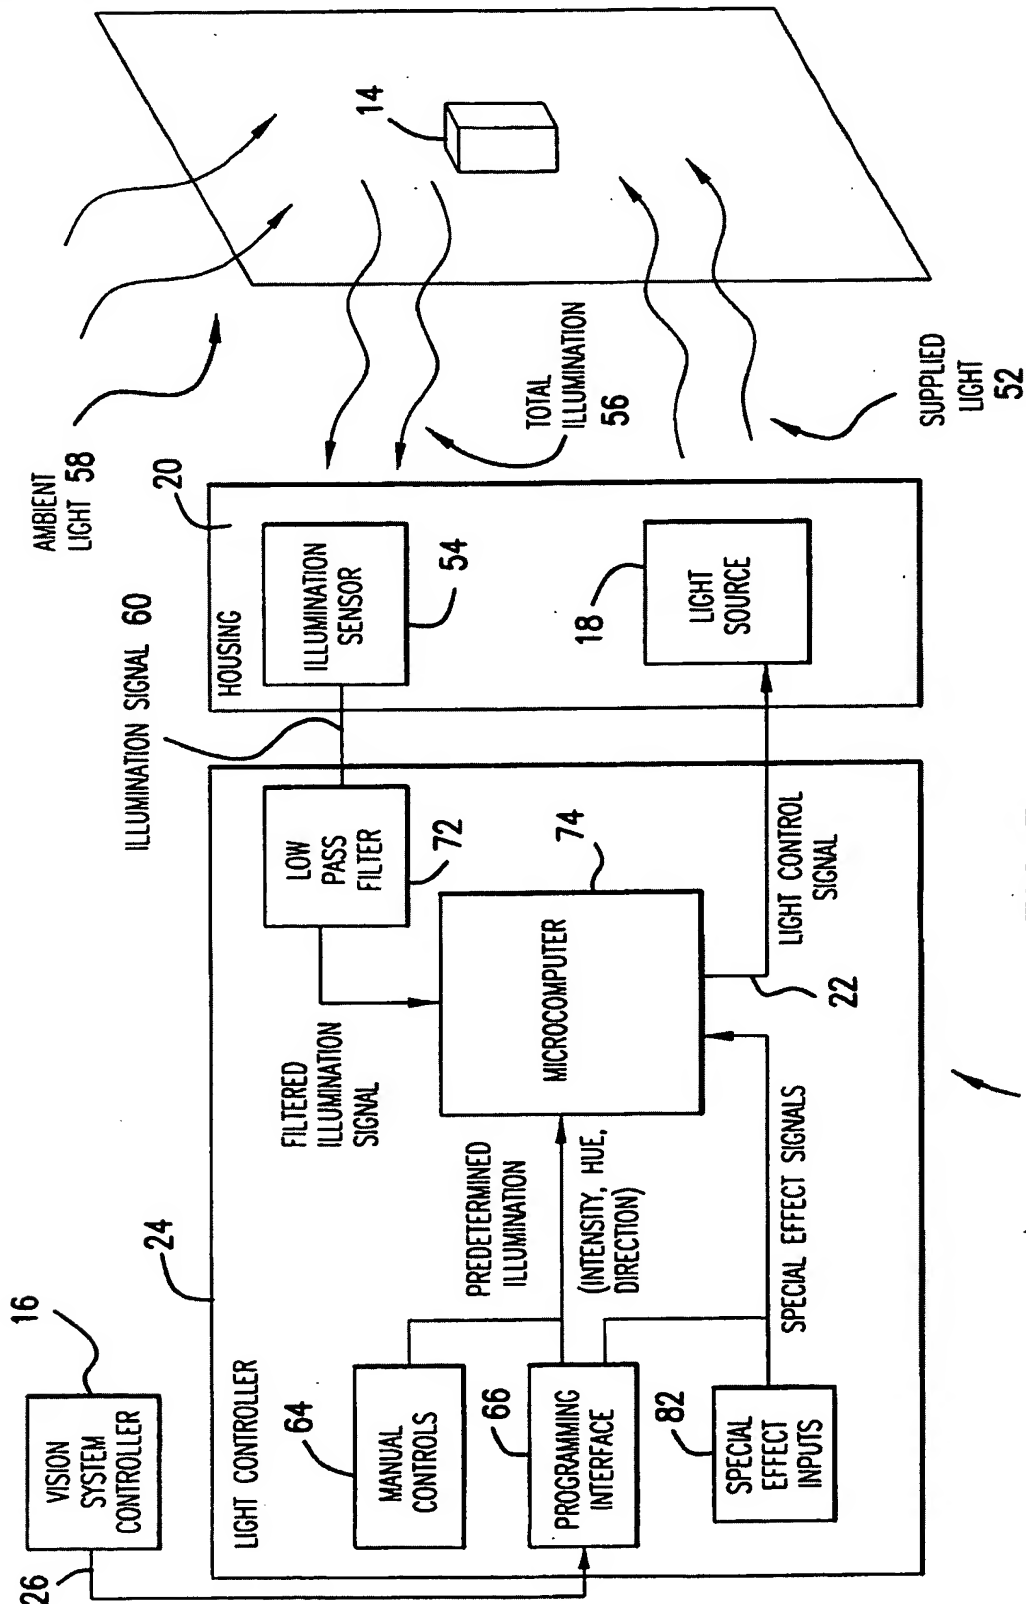

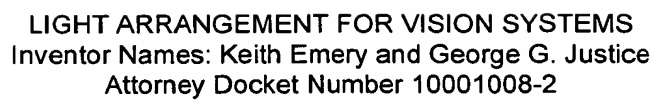

FIG. 5

The diagram illustrates a multi-channel LED array system. A central bus, labeled 22, is connected to nine input lines. Each input line is connected to a pair of LEDs, labeled 36a and 36b. A sensor, labeled 60, is connected to the bus and the LEDs. The LEDs are labeled 36a and 36b, and the sensor is labeled 60. The bus is labeled 22.
